Brand New Book ***** Print on Demand *****.Introductory short essays and poems about human being s natural state. The entire population lives in the synthetic reality created by the thought and suffer. In the inherent contingency there is less suffering or avoid the anguish altogether. Simple waves, insects, birds, wind or any natural existence can reveal the Reality in a fraction of a second if you look at without any beliefs. Assumed reality experts claimed to be legitimate is an artificial reflection of the actuality. Convictions are needed to function normally in the society, yet the presumption provided by the superficial or the cognizance eventually causes infliction and agony. Once you accept the humanoid reality the pain comes from the illusory or psychological source. Recognizing the inception of Real manifestation within reveals the truth about everything and constructs inner power to bless, blossom and experience the supernatural. Genuineness discloses itself when the dogmatic beliefs are set aside whether while introspective inquiry or in malady or out of nowhere. A simple idea arising in the mind has the power to block the verity from a person. Reality = Actual Reality reality = Man-made reality.
