

Brain; A Journal of Neurology Volume 39 (Paperback)

By Anonymous

Rarebooksclub.com, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1916 edition. Excerpt: .muscles and elastic was not involved in the degeneration. The structure of the buttons was essentially similar. The media everywhere showed an excess of fibrous stroma. The intima of the femoral arteries was hypertrophied. A longitudinal layer of muscles was recognized between the elastic lamina and the stripe. Internal to the elastic stripe was a zone of concentric elastic fibres. The media contained many small spindle-form areas of degeneration. A case of aneurysm of the right intracranial carotid artery close to the junction with the right middle cerebral, which led to death from cerebral hsemorrhage after giving rise for thirteen months to chronic headache. The first leakage apparently occurred whilst the patient was at stool and was accompanied by acute headache, vomiting, pains in the abdomen and legs. Ptosis of the right upper eyelid appeared fourteen days subsequently and on the sixteenth day a...
