Excerpt: .from the north-west, twelve hundred and fifty three miles from the Gulf, yet having been first explored, it received the name Mississippi, which it has since retained throughout its entire course. If we regard the Missouri as a continuation of the Mississippi above the junction, the entire length will amount to about four thousand three hundred and fifty miles. Above the confluence of the two rivers, the waters of the Mississippi are remarkably clear; but after comringling with those of the Missouri, they become exceedingly turbid, and contain about four tenths of sedementary matter. The Missouri river, (the Mud river,) which is the longest tributary stream in the world, has its source in the Rocky mountains, lat. 45 N., long. 110 W W. The springs which give rise to this turbulent river, are not more than a mile from the head waters...
