The study of Dr. Holders treatise on the Principles of Harmony, Still in g6eets Remarks on the Works of Tartini, and Avisons Strictures on Musical Expression. --to say nothing of Dr. Walliss Ptolemy, or, the Five Greek writers on Music, collected by Aleibomias, --would enlarge aud refine gentlemens ideas respecting the profundity and compass, powers and elegance of the science of harmony and melody, and the art of giving effect in their performance. The study of music thus prosecated would be found worthy of the highest intellects, and give the proficient, as a real musician, the same superiority over the mere fiddler, that the architect holds, in comparison, with the builder who works from his design. With what pleasure does the sedulous student in music learn that the proportions which the author of nature has established for delighting the ear, are the same with those which in architecture are beautiful to the eye; and that the primary colours are respectively limited to the like measurable relation! How simple is the economy of nature; and how wonderful is the fact, that beauty in such various provinces should be governed by one invariable rule or ordinance! If the study of the profouoder depths of the science of sound requires more time than the other branches of a gentlemans acquisitions will allow, still we would recommend him to combine with his practical skill,...
