FOREST DEVELOPMENT

Book Condition: New. Publisher/Verlag: Springer, Berlin | Succession, Environmental Stress and Forest Management Case Studies | Forest ecosystems are characterized by a steady change in their structure of function. Natural developments are more and more radically disturbed by human impact. Air pollution leads to soil acidification, change in nutrient budget and to a decreasing vitality of the trees. Forest management can prevent natural succession and often leads to less stable forests. In this book, selected results of 10 years of...
