A brand new electronic book with a new standpoint. It is written in basic phrases rather than confusing. It's been designed in an extremely basic way which is merely right after I finished reading through this publication where basically altered me, change the way I believe.

Brand New Book ***** Print on Demand *****.Written during a time in my life when I was experiencing a number of life changing events, these poems express a fragile yet scientific outlook on survival and existence. In 2006 I was going through Chemotherapy for cancer, finishing a PhD in Applied Physics, and had a newborn daughter. Poetry became not just an outlook for my otherwise very literal work as a scientist, but an important part of my identity. 15 of these poems have been reviewed, or published in journals. This is the first time they appear together, as a recorded history, of the artistic journey of discovering some of life s biggest challenges.
