Brand New Book ***** Print on Demand *****.While the popular conception of Lincoln as the Liberator of the Slave is true historically, there is a deeper view of his life and character. He was the savior, if not the real creator, of the American Union of free Democratic States. His proclamation of emancipation was purely an incident of war. The first policy of his administration was to save the Union. To this fact we owe a united Nation to-day. It is this truth of history which I try to make a living reality in my play. The scenes relating to the issues of our National life have been drawn from authentic records. The plot of the action is based on the letter of Colonel John Nicolay to Major Hay, dated August 25, 1864, in which the following opening paragraph is found: Hell is to pay. The New York politicians have got a stampede on that is about to swamp everything. Raymond and the National Committee are here to-day. R. thinks a Commission to Richmond is about the only salt to save us; while the President sees and says it would be utter ruination. The matter is now undergoing consultation. Weak-kneed damned fools are in the movement for a new candidate to supplant the President. Everything is darkness, doubt, and discouragement.
