METHODS OF TEACHING GEOGRAPHY: NOTES OF LESSONS (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Methods of Teaching Geography: Notes of Lessons The writer of these notes, in responding to an invitation to occupy an hour, on four successive Saturdays, in presenting methods of teaching geography, was embarrassed by the breadth of the subject to be treated in so limited a time. It was necessary to determine what could be done, and what could be omitted. A mere outlining of a plan of study would be neither helpful nor satisfactory. It seemed desirable, therefore, to try to indicate the stages of a progressive course of study, and to present methods of teaching a few important points. The topics selected for fuller treatment were among those that require simple and careful presentation by teachers, in order that the concise statements of the text-books may be comprehended by pupils. It should be stated, however, that these topics, when illustrated in their proper connections in the regular class-teaching, will not have the undue prominence that was given them designedly in this brief course of lessons. The printed notes indicate the arrangement and method followed; but the lessons were not written out at the time they were given, and no attempt has been made to reproduce them in full.
